SUMMARY

Ambitious student with a passion for augmented reality. Has computer networking skills and a relevant internship that sharpened and showcased these abilities. Incorporates hard-work with enthusiasm to further develop ideas.

EDUCATION

University of Florida   Gainesville, FL
B.S in Computer Science, (3.9 GPA)   Aug 2023 – May 2027

EXPERIENCE

Integrated Solutions Intern   June 2022 – Jan 2023
Miller Electric Company   *Jacksonville, FL*
- Moved equipment into the internal network and developed a visual graphic of every switch connection
- Configured networks, switches, cameras, firewalls, access control, and radios
- Progressed through part of the CompTIA Network+ content
- Worked on simple AutoCAD LT projects

PROJECTS

Text-Based RPG | *Python, Replit*   Aug 2019 – May 2020
- Developed a short text-based Roleplaying game that responded to user input and progressed the story
- Kept track of statistics relevant to the user

Blackjack 25 | *Python, Replit*   May 2018 – May 2020
- Developed a re-imagined version of Blackjack that played off a score of 25 rather than 21
- Included ASCII art in order to enhance the experience of the game
- Ability to play multiple hands per game.

CERTIFICATIONS

IT Fundamentals+ | *CompTIA*   Jan 2023
Security Fundamentals | *MTA*   Jan 2022
Networking Fundamentals | *MTA*   May 2021
Windows Operating System Fundamentals | *MTA*   Feb 2020
